Service: Dima Bône, the energy market modelling platform at dimabone.powerhipporegius.co.uk. Provider: Power Hippo Regius Ltd, London, United Kingdom (“we”, “us”, “our”).

How these terms fit together. *These Product Subscription Terms add detail that is specific to Dima Bône. They sit alongside the Power Hippo Regius **Terms of Use & Privacy Policy** (the “Master Terms”), which you can read at www.powerhipporegius.co.uk/terms-and-conditions.pdf. The Master Terms govern subscriptions, trials, billing, cancellation, the 14-day cooling-off right, intellectual property, data protection, liability and everything else. Where these Product Subscription Terms conflict with the Master Terms **for Dima Bône**, these Product Subscription Terms prevail. Words defined in the Master Terms have the same meaning here.*

By subscribing to Dima Bône, starting a Dima Bône trial, or ticking a box that references these terms at checkout, you agree to these Product Subscription Terms and to the Master Terms.

1. What Dima Bône is

1.1 Dima Bône is **analytical software for energy markets**. It provides a proprietary modelling and optimisation engine and the tools that present its Output, including (depending on your plan): a data catalogue and power-units library; scenario building and dispatch simulation; unit-commitment and optimal-power-flow style modelling; storage, contingency and interconnection modelling; price formation and merit-order analysis; forecasting; backtesting; and visualisation, reporting and run comparison.

1.2 Your Subscription buys **access to this software and to the analytical logic, models and algorithms we have built — not the underlying data** (see clause 4 of the Master Terms). The engine is our own proprietary work.

2. Important — Dima Bône is not trading or investment advice

2.1 **Output is a model estimate, not a statement of fact and not advice.** Forecasts, prices, dispatch schedules, locational marginal prices, merit orders, backtest scores and other Output are produced from assumptions, scenario settings and Third-Party Data, and they may be inaccurate, incomplete or out of date. Energy and commodity markets are highly volatile and affected by factors no model can fully capture.

2.2 Nothing in Dima Bône is financial, investment, trading, hedging, legal, tax or regulatory advice, and nothing is a recommendation or invitation to buy, sell, bid, offer or trade any electricity, gas, fuel, certificate, allowance, derivative or other instrument. You must not treat Output as a basis for placing real bids, offers or trades without your own independent verification, risk management and, where appropriate, regulated professional advice.

2.3 You are solely responsible for any decision, position, bid or trade you make, and for compliance with the market rules, licence conditions and regulations that apply to you (for example wholesale energy market integrity and transparency rules). We are not a party to, and accept no responsibility for, any transaction you enter into.

3. Data sources

3.1 Dima Bône incorporates and processes **Third-Party Data** from external and public or open sources, which may include (without limitation) ENTSO-E, Elexon/BMRS, RTE, REE, OPSD, Ember, Eurostat and JAO, as well as clearly-labelled sample series we provide for illustration. That data remains subject to its owners' licences (see clause 5 of the Master Terms).

3.2 Sample or illustrative series are provided to let you explore features and are not market data; do not rely on them for analysis of real positions.

3.3 You are responsible for ensuring your use of any Third-Party Data surfaced in Dima Bône complies with that data's source licence and with any conditions that apply to you.

4. Your plan, price and free trial

4.1 **Consultant plan (self-serve).** The self-serve Dima Bône subscription is the **Consultant** plan, sold to an individual user, priced at £49 per month (Subject to change in the near future) or £490 per year (also subject to change) (the annual plan offers a saving against twelve monthly payments). Prices are shown at checkout inclusive of any VAT we are required to charge. The current price always shown to you at sign-up prevails if it differs from this clause.

4.2 **Free trial.** New Consultant subscriptions include a one-month free trial. You may be asked for payment-card details to start it. **Unless you cancel before the trial ends, your subscription begins automatically at the end of the trial and the Fee is charged on the date shown at sign-up.** You will

not be charged during the trial, and you can cancel during the trial at no cost.

4.3 Renewal. Subscriptions renew automatically (monthly or annually, as chosen) until cancelled. Price changes are handled under clause 7.4 of the Master Terms.

4.4 What is included depends on your plan and is described on the subscribe page and in the in-app help. The Consultant plan is for a single named user; sharing one login between people, or reselling access, is not permitted (see clause 6.5 of the Master Terms). Team, multi-seat and full-access (Enterprise) arrangements are available under separate terms.

5. Cancelling, refunds and your 14-day right

5.1 Cancel any time. You can cancel from your account settings or the Stripe billing portal, as easily as you subscribed. Cancellation stops the next renewal and takes effect at the end of your current paid period (clause 8 of the Master Terms).

5.2 14-day cooling-off (consumers). If you are a consumer, you have a statutory 14-day right to change your mind when you sign up online, as set out in clause 9 of the Master Terms. If you ask to start using Dima Bône immediately during that period and then cancel, we may charge a proportionate amount for the access you had; during a free trial, no Fee is due.

6. Acceptable use specific to Dima Bône

6.1 In addition to clause 6.5 and clause 10 of the Master Terms, you must not: use Dima Bône to reverse-engineer, benchmark or replicate the modelling engine or to build a competing model or service; systematically extract or bulk-download datasets or Output beyond normal interactive use; or use Output in a way that breaches any Third-Party Data licence or any market-conduct or market-abuse rule that applies to you.

6.2 You are responsible for the accuracy of the scenario assumptions, parameters and data you enter, and for reviewing Output critically before relying on it.

7. Everything else

All other terms — formation of the contract, consumer and business-customer rights, billing and Stripe, suspension for non-payment, intellectual property and ownership of Your Data, data protection and the Privacy Policy, limitation of liability and the liability cap, governing law (England and Wales) and how we make changes — are set out in the Master Terms at www.powerhipporegius.co.uk/terms-and-conditions.pdf and apply to your use of Dima Bône.

Dima Bône is provided by Power Hippo Regius Ltd. These Product Subscription Terms are read together with the Power Hippo Regius Terms of Use & Privacy Policy. Output is decision-support, not advice.
